CDAP Projects

Designo Graphy has collaborated with a sizable number of reputable businesses. Here is a brief introduction to some of our recent projects and the expert advice provided after their current technology evaluation. While we have completed a variety of projects, our client has successfully obtained CDAP approval through our expert advisory services in no more than three days-after DAP (digital adoption plan) submission.

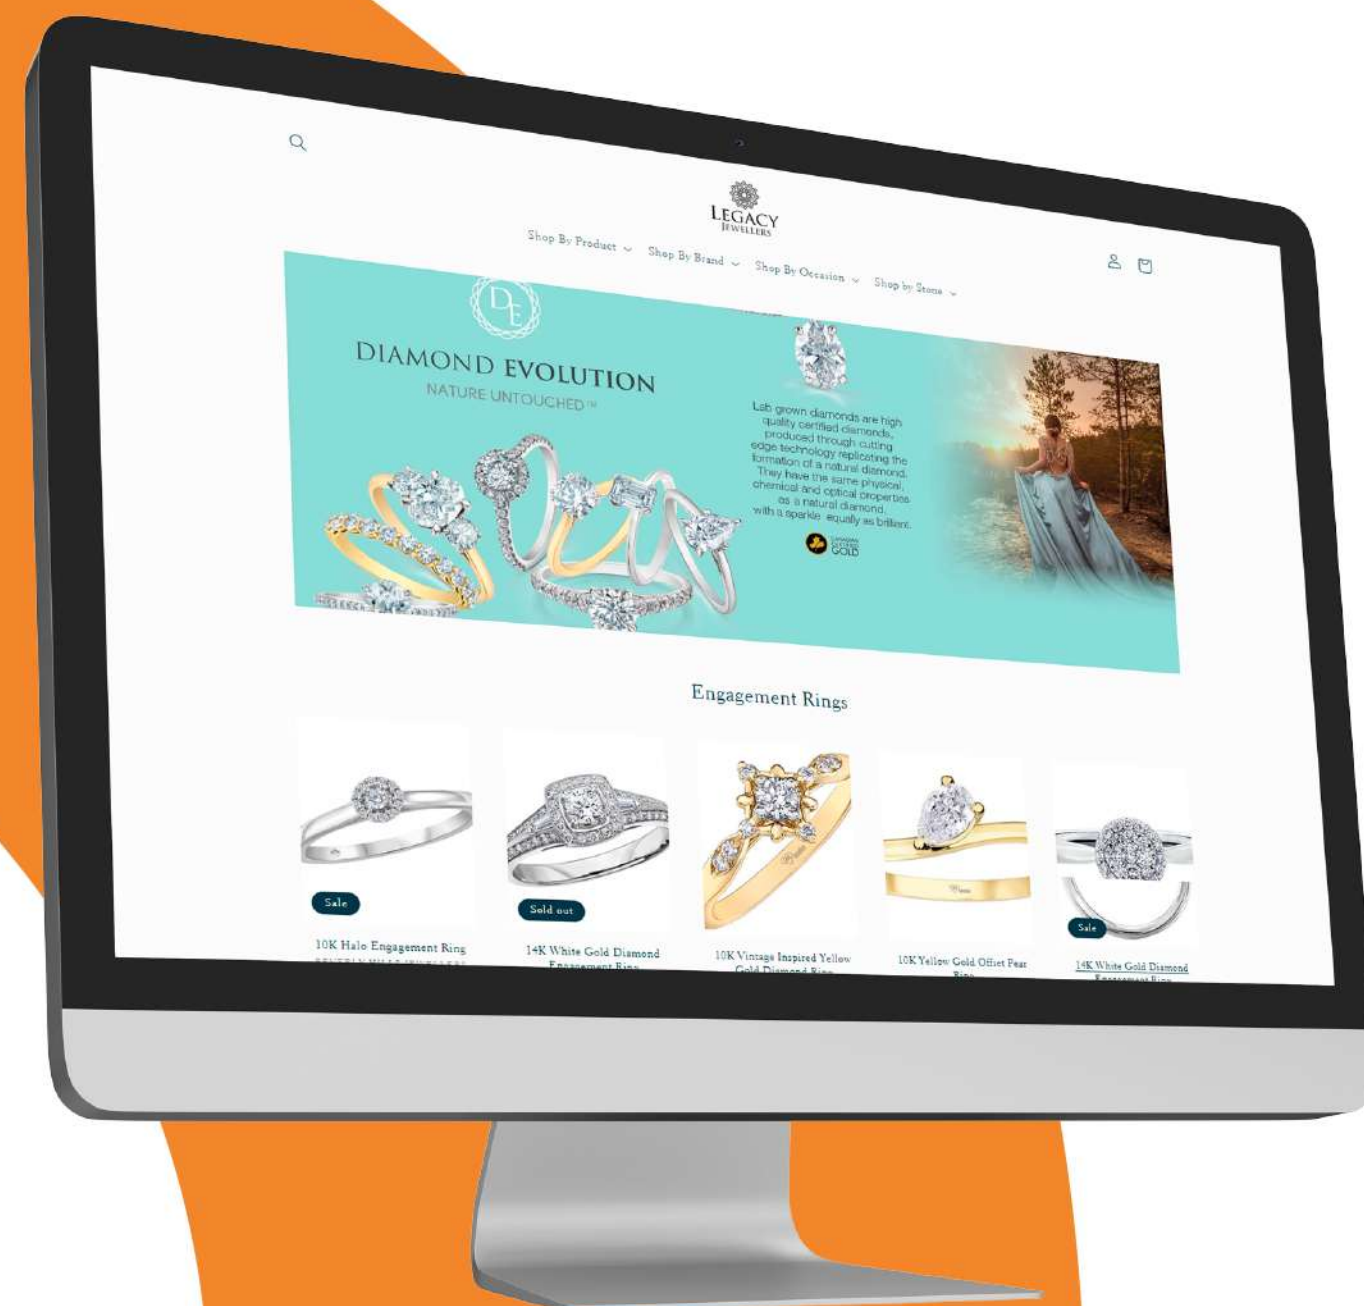

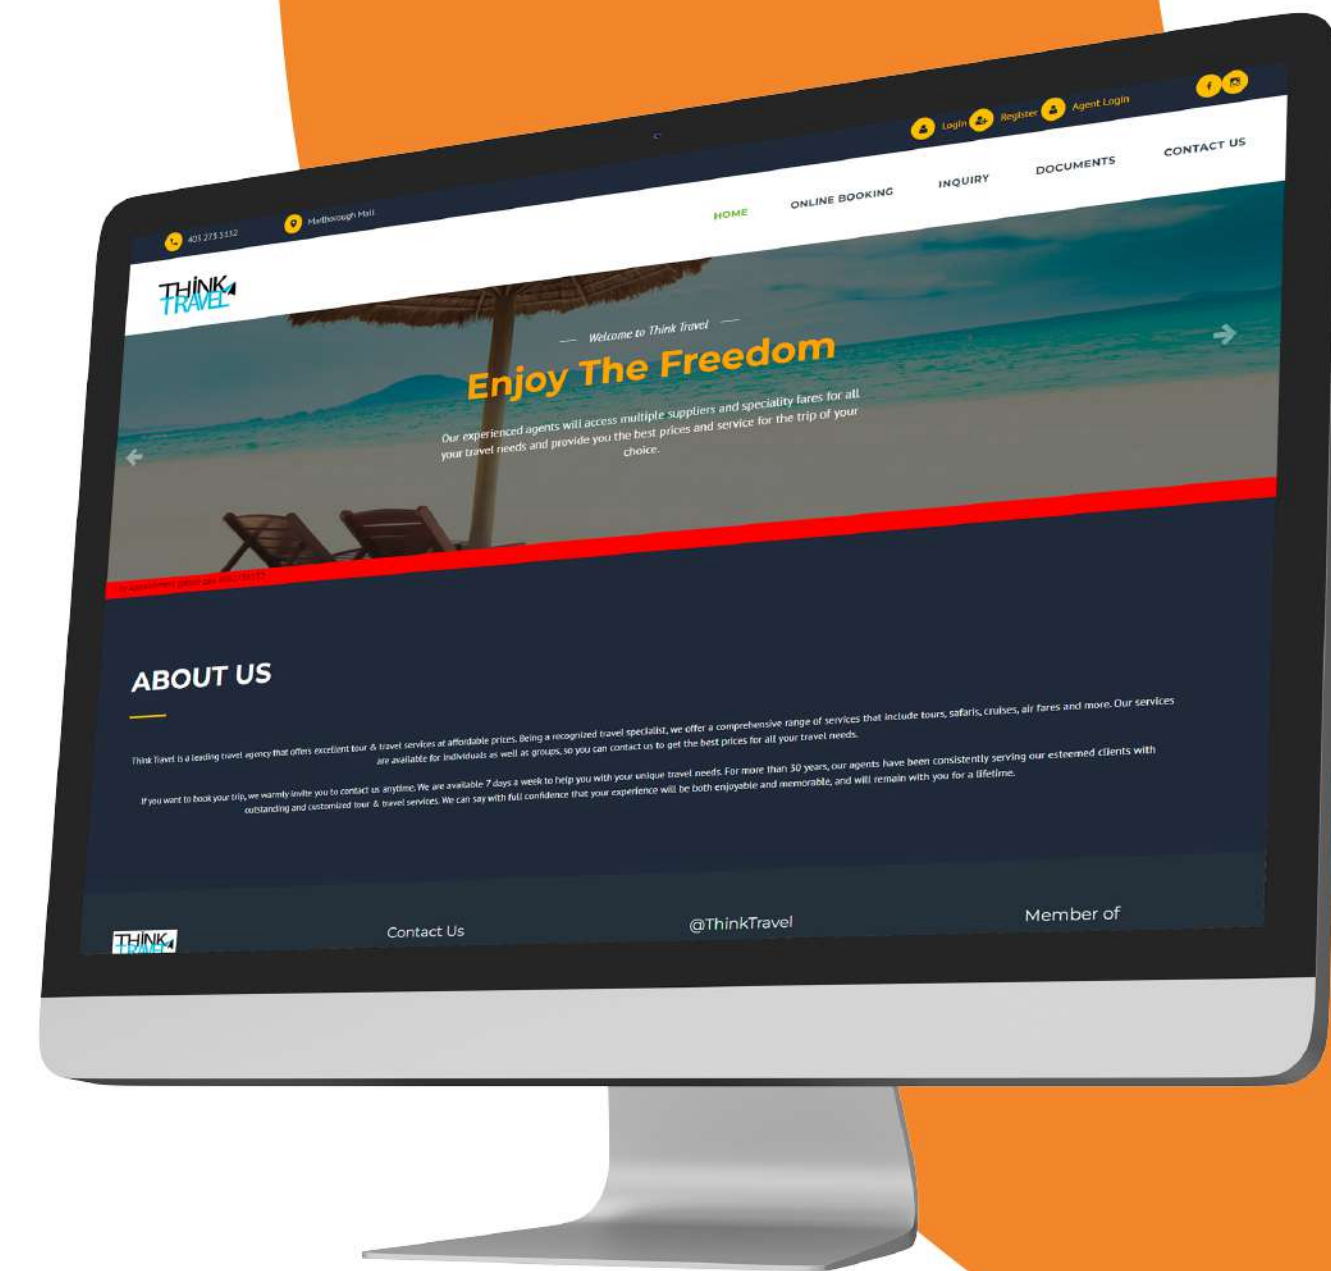

Canadian Union (Money Transfer)

In order to increase website traffic for the Canadian Union Money Transfer, Designo Graphy provided a comprehensive digital marketing strategy that included SEO optimization, strategic PPC, and social media marketing. Additionally, planned an API integration system, which ensured secure IT systems and enabled effective online money transfer, resource allocation, CRM, cost reduction, and sales growth.

Think Travel

In order to improve website bookings, put in place safe online payment methods, and make sure that consumer data was shielded from fraud, Think Travel benefited from Designo Graphy's expertise. We helped to improve customers' overall experience. We also advised on front-end design, back-end database assistance, and digital marketing.

Legacy Jewellers

We helped Legacy Jewellers to embrace the latest technologies and digital solutions to expand their client reach and online presence. Now they have a straightforward strategy for CRM, e-commerce, integration with third-party marketplaces, analytics, PPC, SEO, social media and email marketing. We helped them to increase their ROI, sales and profit.

Sidhu **Accounting (SA)**

Designo Graphy has assisted Sidhu Accounting in using digital technologies to enhance their business processes and profitability. Their website, inventory management, CRM, email marketing, social media marketing, PPC marketing, and SEO have all improved. They are currently making progress in the direction of a reliable clientele and a better position in the industry.

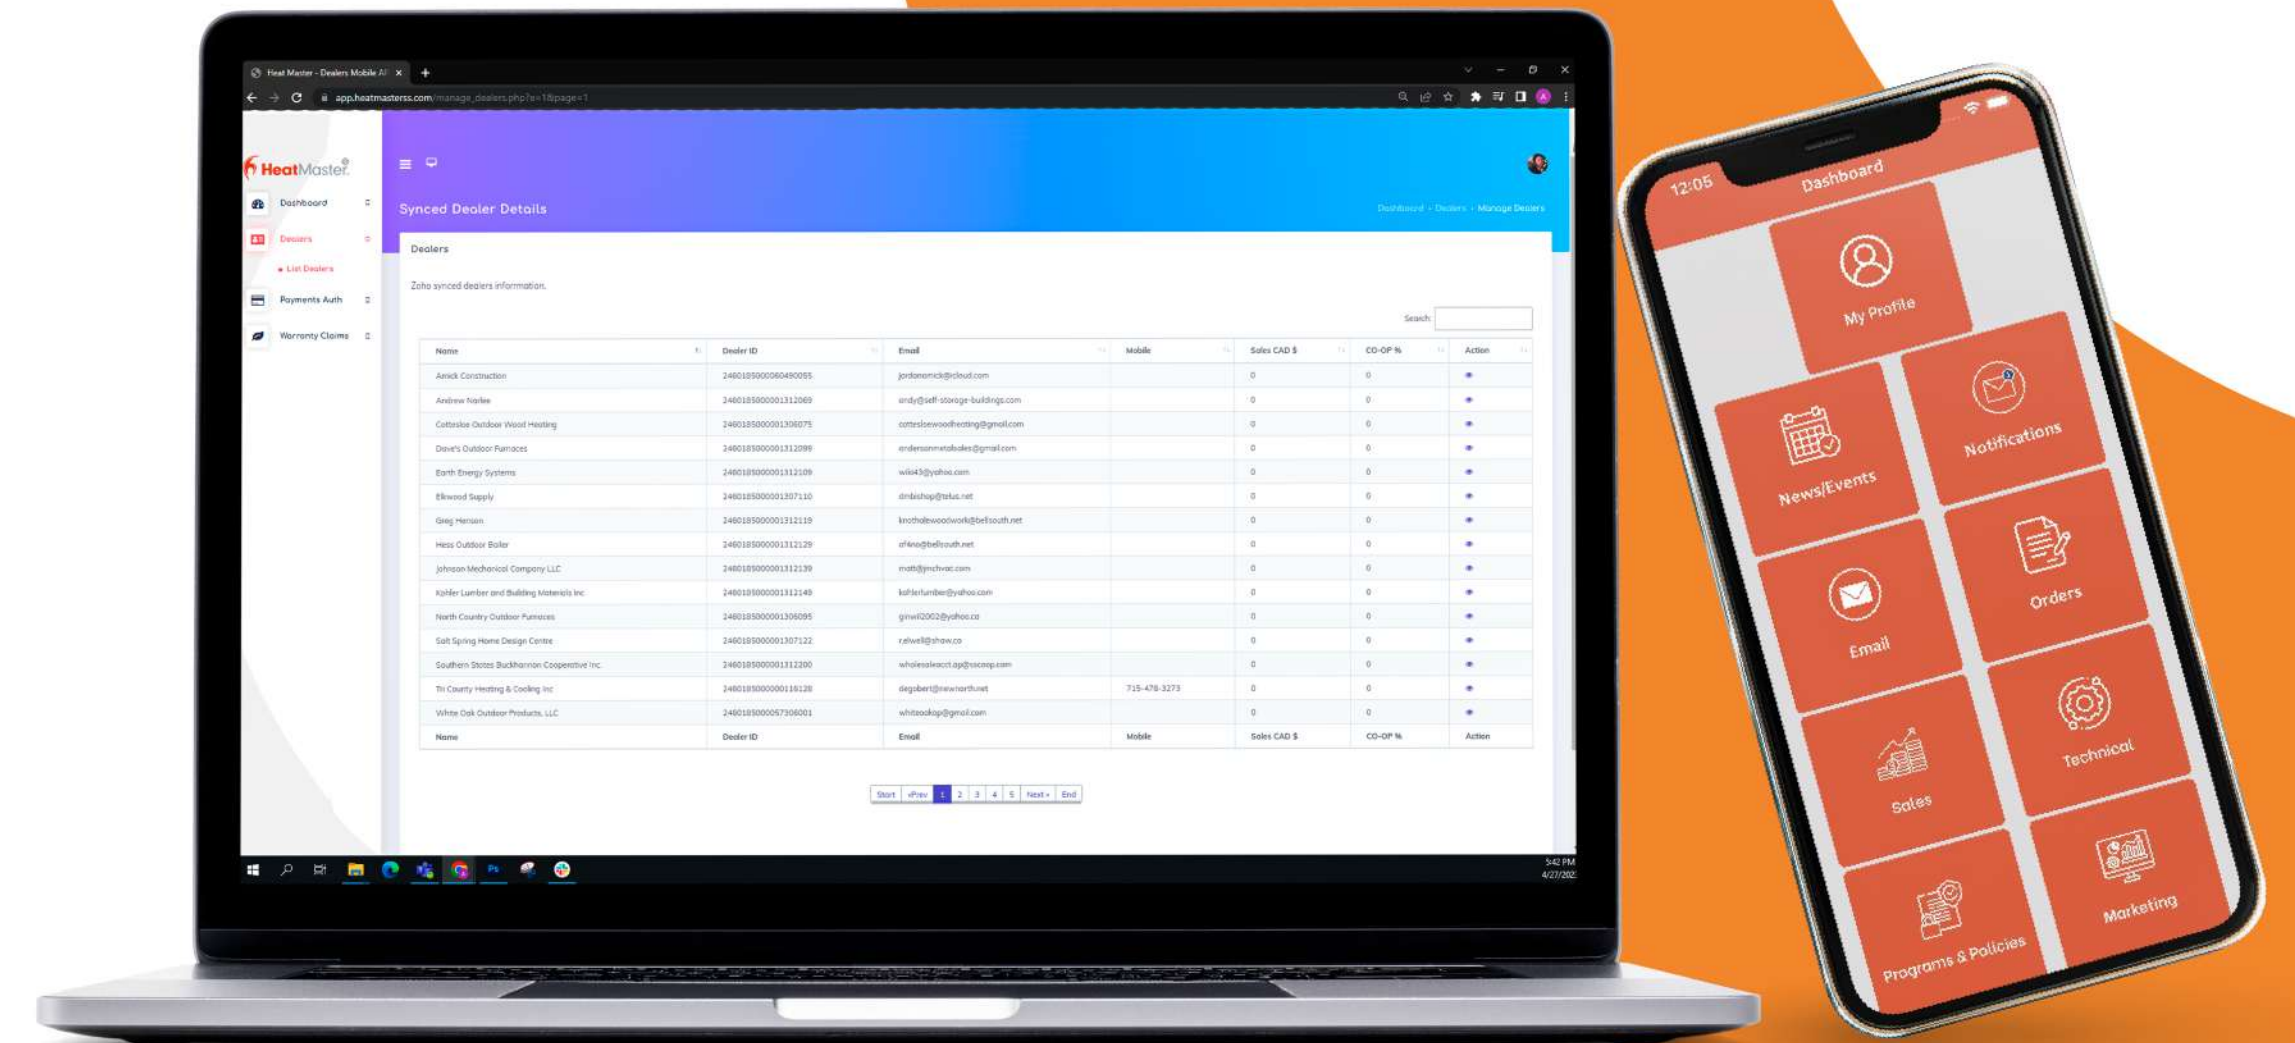

Web, App & **Software Projects**

Designo Graphy has made its name as a reputable software development firm within a relatively short period. We achieved this milestone by serving our valuable clients in the best possible ways. We don't only build apps and web solutions, but we also know how to make your business stand out.

Heat Master SS

HeatMaster SS is a manufacturer of outdoor wood furnaces. We helped them develop an app for their dealers to place and track orders, warranty claims, dealer meetings, order parts, and access documents like installation guides and user manuals.

Lubana Trucking

We built an app for Lubana Trucking to track the status and location of their loads/trucks in real time. With the help of this app, they can manage their resources more efficiently, and drivers can update the status and submit BOL documents through the app.

Eleos Express

Eleos Express is an emerging logistics company that delivers pharmaceutical products and medicines to customers in Calgary. Designo Graphy collaborated with them to design their online store with a premium front-end theme, back-end database support, UI design, and SEO for the website.

Circal Engineering

Circal Engineering designed a music system for Opera houses and reached out to us for app development. With the help of the app, the system enabled them to play and control music through speakers. We assisted them with developing a feature-rich app using a hybrid app development platform.
